

# Property sales in Indonesia

**Are you buying quality real estate in Lombok? Tell us about your needs. PT Hotplanet Indonesia has 34 Ha of prime real estate on the beach and, for the first time in more than 20 years, we are selling.**

**White sands to beautiful sandstone cliffs, forests and hills at the entrance of Ekas Bay, south-east Lombok.**

We can confidently provide you with the land or resort you want ... right type, right location, and right price. We want to talk to buyers of large sites with sensational views, multiple surfbreaks, coral reefs and just 1 hour from the new GP racetrack and international airport.

Finding land this size on pristine beaches, with strong ownership, is now difficult in Lombok, and well gone in Bali. With 22 years of successful resort experience in Ekas Bay, we can help with sub-division purchases and all forms of advice.

# This week's feature land is Ocean Heaven

Our PT developed a boutique Resort at Ocean Heaven in 2005. It was closed in 2014 to focus on Heaven on the Planet Resort and is now defunct. The 3.5Ha mostly-level land fronts an Idyllic beach which is so beautiful that Google calls it "Paradise Beach"

Many visitors say there is no other site which matches the beauty and harmony of Ocean Heaven. The functionality is further improved by a variety of elevated and beach level building sites, offshore winds throughout the season, healthy coconut groves and renewable forest. We know it's ideal for an 80+ key boutique resort. The bitumen road comes to our gate.

The total land is 6.8 Ha but smaller sub-divisions can be discussed.
